TAULAT design Tree Grate , overall dimensions (length x width x diameter) 1195 x 1195 x 470 mm, made of galvanized iron with a black wrought iron finish, with 18 mm circular openings that can be cut to adapt the inner diameter to the trunk size as the tree grows, with 4 circular openings. Mounted on a TAULAT frame by BENITO (not included), made of iron, overall dimensions (length x width) 1200 x 1200 mm. Prepared for flush mounting to ground level and secured by filling the exterior gaps with concrete.

Steel with FERRUS treatment: an iron protection process that ensures optimal corrosion resistance. The Ferrus treatment consists of three layers applied after cleaning all dirt and impurities using shot blasting, and it involves an electrolytic bath followed by an epoxy primer and a final coating of polyester powder paint.
