Materials:

Wooden Posts, Robinia Wood: Circular section posts made of Robinia wood. They are characterized by their strength and durability. Their trunks are entirely composed of heartwood, the hardest part of trees. It is a living material, so small cracks may appear that do not affect its durability, which can reach up to 20 years.

Metal Parts: AISI-304 stainless steel.

Fasteners: Electro-galvanized and AISI-304 stainless steel 8.8 DIN267 fasteners.

- None of the materials require special treatment for disposal.
- If the equipment is subjected to severe use, the maintenance plan should be increased.
- Do not use the product before completing installation/maintenance.
- Consult maintenance instructions.
