BAS-MOBILIAR

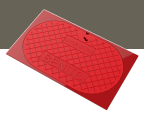

Hidrante bajo nivel tierra

DOBLE DN100-70-70

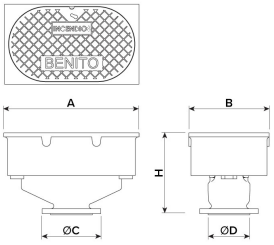

HIDN1002X70

HIDN100

Ref	A	B	H	ØC	ØD
HIDN100	500	297	303	Ø217	Ø154

Underground **hydrant** to be installed. May include the disposal unit and cover for installation (depending on model).
The hydrant is a device that supplies a large amount of water in a short amount of time.
It allows the connection of hoses and firefighting equipment, as well as the filling of firefighters' water tanks.
Designed for space issues, such as on sidewalks in large cities. By remaining underground, the risk of frost damage is minimal.

Horizontal or vertical **DN-100 connection**
Nominal pressure of 16 bar
Sealing test of 25 bar
Interior components highly resistant to corrosion and aging (brass and stainless steel)
Outlet: 70mm aluminium fittings, Barcelona model with lid
Cast iron **disposal iron and cover**
