

Pole Natum

ICNT

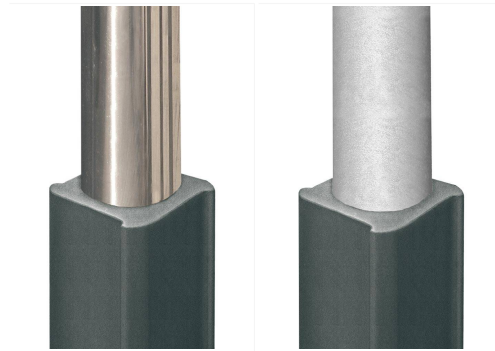

Telescopic Pole with a square-section base and rounded corners, made of galvanized steel S-235 JR with a standard micro-textured black finish. Cylindrical shaft with Integrated side panel made of hot-dip galvanized steel, with single and double options at the same and different heights.

Total Pole height: 5 to 11 meters, with termination in Lateral Ø60 mm. Design with a distinctive aesthetic and unique presence, ideal for promenades and avenues, offering a Light Point that adds personality to the municipality.

Optional:

- Shaft and in polished stainless steel.
- Anti-urine treatment at the base.
