**TRI-TILTING Litter Bin**, total dimensions (width x Ø x height) 738x320x1465 mm, 2x32 litres, made with a cylindrical bucket made of stamped sheet metal and a Ø 60 mm steel post (treated with the Ferrus process, the triple-layer protector for iron, which guarantees optimal corrosion resistance) with epoxy primer and black forged polyester powder paint for the post, one yellow bucket and one blue bucket. Prepared for anchoring embedded in the ground.

Optional not included: Customizable marking with 74x35 mm/80x100 mm aluminum plate.

**Steel with FERRUS treatment:** an iron protection process that ensures optimal corrosion resistance. The Ferrus treatment consists of three layers applied after cleaning all dirt and impurities using shot blasting, and it involves an electrolytic bath followed by an epoxy primer and a final coating of polyester powder paint.
