With
ashtray

DARA designer Litter Bin, total dimensions (width x depth x height) 535x370x1000 mm, 100 liters, made of steel (treated with the Ferrus process, the triple-layer protector for iron, which guarantees optimal corrosion resistance). Epoxy primer finish and forged black polyester powder paint. Door for front bag extraction, body with a stainless steel cap and cigarette extinguisher, with its own built-in bucket. Prepared for anchoring with 4 M8 expansion bolts according to surface and project.

Optional not included: Customizable marking with 74x35 mm/80x100 mm aluminum plate.

Steel with FERRUS treatment: an iron protection process that ensures optimal corrosion resistance. The Ferrus treatment consists of three layers applied after cleaning all dirt and impurities using shot blasting, and it involves an electrolytic bath followed by an epoxy primer and a final coating of polyester powder paint.
