Chair

Citizen Eco

ReBnew
material

20 years
warranty

Low
maintenance

CITIZEN ECO designer chair, total dimensions (length x height x depth) 700x810x650 mm, made with seat and backrest in ReBnew plank (BENITO's recycled polymer that is produced entirely from packaging from the yellow container and does not require any type of maintenance), bench with armrests made of high-pressure injected polymer. Stainless steel screws. Prepared for anchoring with M10 expansion bolts according to surface and project. Optional not included: Customizable marking with 74x35 mm aluminum plate.

ReBnew: 100% recycled polymer, sturdy and durable, derived from urban, industrial, and domestic waste... It is weather-resistant, resistant to oils, acids, and seawater. It does not splinter or crack, nor does it rot or dry out.

Irregular surface finish makes the board extremely durable as it effectively hides scratches caused by vandalism. Nevertheless, surface scratches can be repaired to restore it to a like-new condition.

Scratch Repair on ReBnew

AWARDED WITH "DER BLAUE ENGEL": Product with low environmental impact throughout its lifecycle. It is awarded to products that meet criteria for reducing environmental impact in manufacturing, recycling, packaging, use, emissions, collection, and disposal. In addition to environmental criteria, it includes quality, safety, energy consumption, and other considerations. It is one of the most prestigious labels globally.
