NEOBARCINO designer chair, overall dimensions (length x height x depth) 700x825x710 mm, made with ductile iron legs (treated with the Ferrus triple-layer protective process for iron), six engineered wood planks (recycled wood (60%), recycled polymers (35%), and UV-resistant pigments (5%)). Maintenance-free (will not crack, splinter, rot, or dry out; resistant to moisture and inclement weather; insect, woodworm, and termite resistant). Stainless steel screws. Prepared for anchoring with M10 expansion bolts depending on the surface and project.
Optional not included: Customizable marking with 74x35 mm aluminum plate or milled board.

Ductile Iron treated with FERRUS: iron protection process that ensures optimal corrosion resistance. The Ferrus treatment consists of three layers applied after cleaning all dirt and impurities using shot blasting, involving an electrolytic bath followed by an epoxy primer and a final coating of polyester powder paint.Forged black colour
