By Jornet Llop © @ BENITO

ARQ 2000 designer Bench, total dimensions (length x height x depth) 2020x845x800 mm, made with a tropical wood section finished with fungicidal, insecticidal and water-repellent protection and a cold-rolled steel structure with an epoxy primer and oven-sublimated polyester paint, black oxiron forge color. Prepared for anchoring with M10 expansion bolts according to surface and project.

Ductile Iron treated with FERRUS: iron protection process that ensures optimal corrosion resistance. The Ferrus treatment consists of three layers applied after cleaning all dirt and impurities using shot blasting, involving an electrolytic bath followed by an epoxy primer and a final coating of polyester powder paint. Forged black colour

Hardwood treated with LIGNUS: Wood from responsible forestry. Density greater than 930kg/m³, at 12% humidity, treated with a triple-layer LIGNUS coating, fungicide, insecticide, and water-repellent that provides protection against moisture penetration. Final finish with a layer of natural pigment in a satin finish, which provides additional protection against UV rays, the main cause of deterioration in this type of material.
