Shower Atlas

Stainless
steel

ATLAS designer shower with two shower heads, total dimensions (length x width x height) 375x375x2750 mm, highly resistant to corrosion, ensuring durability outdoors. Body and taps are made of polished stainless steel, a durable material that withstands inclement weather, humidity, Solar radiation and high temperatures. Installation via mains connection, 3/4" gas inlet. It has two water outlets or shower heads with timed push buttons. Ideal for Beaches and swimming pools. Anchored to the ground on a prepared surface, with screws according to the surface and project. Optional with recycled plastic pallet.

Stainless steel: Structural alloy with a high chromium and nickel content, resistant to corrosion. High resistance to weather, humidity, UV rays and chemical agents present in urban environments. Thanks to the natural formation of a protective passive layer, stainless steel does not require additional coatings, ensuring excellent durability, low maintenance and a clean, timeless appearance – even under demanding conditions such as coastal or industrial areas.
